

Curriculum Vitae

Dr Michael Lydeamore
Department of Econometrics and Business Statistics
Monash University
Email: michael.lydeamore@monash.edu

Appointments Held

Senior Lecturer - Econometrics and Business Statistics Monash University	2021 —
COVID-19 Modelling & Forecasting Lead Manager, Analytics Department of Health and Human Services, Victoria	2020
Postdoctoral Research Fellow Monash University	2019 — 2021
Honorary Team Member SaferCare Victoria	2019 —
Honorary Research Fellow Alfred Health	2019 —
Research Fellow The Kirby Institute, University of New South Wales	2018 — 2019

Education

Doctor of Philosophy – Applied Mathematics The University of Melbourne Thesis title: Mechanistic and statistical models of skin disease transmission	2015 — 2019
Masters of Philosophy – Applied Mathematics The University of Adelaide Thesis title: Approximations of stochastic household models for comparing antiviral allocation schemes Awarded the Applied Probability Trust prize for the highest mark with a project in Applied Mathematics and Statistics	2013 — 2014
Bachelor of Mathematical Sciences The University of Adelaide Graduated with a double major in applied and pure mathematics	2015 — 2019

Publications

Funding

Almost all of this funding was obtained in partnership with large, collaborative teams.

Modelling Work in Low and Middle Income Counties in the Western Pacific Region for the COVID-19 SAGE Working Group World Health Organisation Awarded value: \$8,157	2024
Modelling To Support Australia’s Resilience to and Preparedness for Omicron And Future Sars-Cov-2 Variants Commonwealth Government of Australia Awarded value: \$80,059	2024
Contractual Partner to Conduct Research on Healthcare-Associated Infection Rates in Phillippine Hospitals World Health Organisation Phillippines Awarded value: \$72,078	2023
Centre of Western Public Health Unit Contract Research Awarded value: \$25,000	2023
Extending and comparing methods for projecting social contact matrices SPECTRUM/SPARK Seed Funding Awarded value: \$19,438	2022
Quantifying longitudinal relationships between community mobility and COVID-19 case incidence in west metropolitan Melbourne SPECTRUM/SPARK Seed Funding Awarded value: \$19,896	2022
Modelling to support Australia’s national plan for COVID-19 Commonwealth Government of Australia Awarded value: \$147,536	2021
Modelling to support Australia’s transition to ‘COVID-normal’ Australian Office of Health Protection Awarded value: \$25,620	2021
Conference presentations and contributed talks	
Networks of networks in infectious diseases modelling — Panelist Infectious Diseases Modelling Conference	2024
Generating synthetic contact matrices using open-source data Australia and New Zealand Industrial Applied Mathematics Conference	2024
Data-Driven Insights into Healthcare Challenges: Two Case Studies — Invited Speaker Universitätsklinikum Freiburg Seminar Series	2023
Data-Driven Insights into Healthcare Challenges: Two Case Studies UNSW Australia Statistics & Data Science Seminar	2023
Burden of healthcare associated infections in Australia Australia and New Zealand Industrial Applied Mathematics Conference	2022
Exponential Random Graph Models and CPE transmission — Invited Speaker Melbourne Mathematical Biology Seminar Series	2021
Mathematical modelling for COVID-19 in Victoria, Australia — Invited Speaker Math for Industry Forum, Vietnam	2021

The associations between transmission of CPE and ward connectivity: a network analysis	2021
Australasian Society for Infectious Diseases Annual Scientific Meeting	
The burden of healthcare acquired infections in Australian public hospitals	2021
Australasian Society for Infectious Diseases Annual Scientific Meeting	
Decision Making and Mathematical Biology - Victoria's usage of COVID-19 modelling — Invited Speaker	2021
Mathematical Biology Special Interest Group Workshop	
Modelling between-household effective contact and the elimination of COVID-19 in Melbourne, Australia	2021
Australia and New Zealand Industrial Applied Mathematics Conference	
Mathematical modelling and Victoria's response to COVID-19	2020
Victorian ANZIAM Branch Meeting — Invited Speaker	
Australia's experience and the role of modelling in its responses to COVID-19 — Invited Speaker	2020
Usher Institute COVID-19 Webinar	
Estimating epidemiological quantities for skin sores in remote Australian communities using interval-censored data	2019
Australia and New Zealand Industrial Applied Mathematics Conference	
Estimating epidemiological quantities for skin sores in remote Australian communities using interval-censored data	2018
NSW–ACT ANZIAM Branch Meeting	
Coupled models of Group A Streptococcus and Scabies: How likely is eradication?	2018
PRISM International Conference	
Investigating the dynamics of coupled epidemiological transmission models with application to Group A Streptococcus and Scabies	2018
Society for Mathematical Biology Annual Meeting	
Investigating the dynamics of coupled models with applications to Group A Streptococcus and Scabies	2018
Australia and New Zealand Industrial Applied Mathematics Conference	
Quantifying the age of first infection with skin sores in five remote Australian Aboriginal communities	2017
Lancefield International Symposium on Streptococci and Streptococcal Diseases	
Investigating the dynamics of coupled models with applications to Group A Streptococcus and Scabies	2017
PRISM Annual Knowledge Transfer and Training Conference	
Constructing mathematical models of Group A Streptococcus and Scabies in remote Australian Indigenous communities — Invited Speaker	2017
Zeeman Institute Seminar Series	
Developing a model for the transmission and treatment dynamics of scabies infections a high prevalence setting	2017
Melbourne-Manchester Joint Workshop	
Developing a model for the transmission of Group A Streptococcus	2017
Australia and New Zealand Industrial Applied Mathematics Conference	

Determining the age of first infection from incomplete data Modelling Emerging Infections and Neglected Tropical Diseases Workshop	2016
Investigating Intervention Intervals for Scabies Infections Australia and New Zealand Industrial Applied Mathematics Conference	2016

Teaching

Lecturer

[ETC5513] Reproducible and Collaborative practices (Chief Examiner)	2024–
[ETC5523] Communicating with Data (Chief Examiner)	2023–
[ETC5512] Wild-Caught Data	2022–2023
[ETC5521] Exploratory Data Analysis	2022

Tutor

[MAST10016] Mathematics for Biomedicine	2016–2019
[MAST30001] Stochastic Modelling	2018

Awards

University of Melbourne Faculty of Engineering and Information Technology Excellence Award in Interdisciplinary Research	2021
IPAA Spirit of Service Awards – Finalist	2021
Engagement Australia Excellence Awards — Outstanding Engagement for Research Impact — Finalist	2021
Top Poster Award — European Congress of Clinical Microbiology & Infectious Diseases	2021
IPAA Victoria Leadership in the Public Sector Awards — Finalist	2021
Best PhD Student Presentation – PRISM² Annual Conference	2017
Applied Probability Trust Prize for best Applied Mathematics Postgraduate Thesis	2016
Australian Postgraduate Award	2015
Dean’s Commendation for Thesis Excellence	2015

Academic Service & Community Engagement

Equity, Diversity & Social Inclusion Committee Department representative	2024 –
SPECTRUM Annual Meeting Organising committee	2024
SPARK Short Course in Mathematical Diseases Modelling — OUCRU Facilitator	2023
Maths in Industry Study Group — NSW Health Moderator	2023
WOMBAT Communicating with Data Workshop Organising Committee	2023
Australian and New Zealand Industrial and Applied Mathematics Executive Committee Treasurer	2022–
Australian and New Zealand Industrial and Applied Mathematics Executive Committee Early Career Representative	2021–2022
SPECTRUM-SPARK Early Career Researcher Committee Chair	2022–
SPARK Short Course in Mathematical Diseases Modelling – Mahidol University Facilitator	2022
Research Tools Workshop in R Facilitator	2022
Mathematical Biology Special Interest Group Treasurer	2019–2022
ANZIAM 2021 Conference Organising Committee (Treasurer)	2020–2021
Computational Biology Research Initiative – The University of Melbourne Postgraduate Representative	2017
Computational Biology Postgraduate Sports Group – The University of Melbourne Secretary	2017–2018
Maths in Industry Study Group Participant	2017, 2018, 2019
The ConocoPhilips Science Experience – The University of Melbourne Activity Organiser	2016–2018
Mathematicians in Schools – CSIRO Project Supervisor/Mentor	2016–2018
Reviewer PLoS Computational Biology; Scientific Reports; Journal of Applied Mathematics; Journal of Statistical Software; Epidemiology & Infection; Mathematics; Medical Journal of Australia; International Tropical Health; Journal of Antimicrobial Resistance; The R Journal	

Professional Memberships

Australian and New Zealand Industrial and Applied Mathematics
Including the Mathematical Biology Special Interest Group
